

Excess Winter Deaths in England Atlas by single or three year trend Quick Navigation Aid

Select trend years
Allows user to select to view data by either, a single year, or three year trend.

Select Map / Table
Click to toggle between Map or Table. Table displays data for selected age / condition for all areas. Confidence Intervals and significance are also shown in the table.

Geography
Click to change the geography from Region to local authority.

Filter
Click on filter to allow the map to zoom into a region. The filter can also be removed using the filter menu.

Adjust map colours
Click on the pencil icon to adjust colours and number of classes.

User Guide
Select this to download user guide including technical specification.

Print
Select for print options.

Data download
Select this to download spreadsheet with data.

Zoom in / out of map
Drag the slider to zoom in or out of the map.

Customising the map
Use the ► to custom filter the map so it shows just the areas of interest or add text, or symbols to the map. The map can also be printed, saved/ exported as an image.

View individual years in the bar chart or map
Use the time series animation by clicking on the ► to cycle through all available years of data and watch the map and bar chart change. To view cycle at your own pace use the <> buttons.

Understanding the data
This gives a brief description of the data in the atlas. More detailed information is available in the user guide.

View Bar Chart or trend chart
Click to toggle between Bar Chart and the time series trend chart.

View EWD by age or underlying cause of death
This opens a new atlas for age or underlying cause of death.

Use map to see chart for area
Hover or click on map area of interest to see bar chart for the area selected.

Comparison Values
Select an area from the table to view comparison data on the chart views, or view the figure in the table. Hold Ctrl to select more than one.

View trend for selected area
Select an area from the map or bar chart or comparison table to see a trend chart for selected area.

Using the bar chart to select an area
(Bar chart not shown in screen shot – can be viewed by clicking on the toggle button above the trend chart) Hover over the graph to see the area name and click to select the area. Each bar is plotted with 95% confidence intervals shown with I.
